* Machine life is based on either page count or year tallied, whichever comes first and is based on printer usage under following conditions. Printer setting: Default settings for all, Media type: Plain paper, Print pattern: ISO/IEC 24712, Environment: Normal temperature and humidity. Measurements are taken based on Brother's internal testing environment. Data for waste ink pad is based on measurement with assumed monthly usage of 50 to 1,000 pages. To maintain product's quality, the waste ink pad needs to be replaced before reaching page count or year limit depending on the environment and printer models.
